JIM HOWARD'S FATE THE ARMY POST TALK

The Jury Contains Eleven Men Who Voted For William Goebel.

The Trial Begins Before Judge Cantrell—Several Witnesses Have Testified.

EVIDENCE SAME AS IN OTHER TRIALS

Frankfort, Jan. 11.—The trial of Jim Howard has been entered into in earnest. All the jurors except one voted for Goebel. They are all farmers except one, who is a real estate man, and are as follows: Clarence Quarles, farmer. Jesse Riddle, farmer. Ned Church, farmer. J. K. Stockton, farmer. Noah Bell, farmer. E. K. Jones, insurance agent. James Briggs, farmer. Almon Glass, farmer. Levi Harrell, farmer. Mitchell Lacount, farmer. Morton Italey, farmer. John Harrell, farmer.

The jury, upon being sworn in, heard the indictment read.

Howard pleaded not guilty to the charge of murder named in the indictment, and former Judge Ben Williams began the opening statement for the commonwealth. Mr. Williams spoke of the bitter political contest between the Democratic and Republican parties in 1904. Judge Gordon objected, and Judge Cantrell sustained the objection. He said at the time of the contest for Governor, Howard was under indictment for murder in May county, and wanted a pardon. Taylor had the pardoning power, and wanted Howard removed. Judge Gordon objected and was sustained by the court. The speaker said Howard's only value in the community in which he lived lay in the fact that he was an expert rifle shot.

Court adjourned at 3:30 o'clock until this morning at 9 o'clock. Eph Lillard, Jack Chinn and others testified this morning in the Howard case about as they did in former trials.

Mr. John Smith, the well known dairyman residing near the city on the Hinkleville road, died last night from the infirmities of old age, after a long and useful life. He was born in England, but had resided in this country most of his life, and leaves a family to mourn his loss.

He was 83 years old, and was quite well known in this section. The funeral will take place tomorrow.

THE WEATHER.

Fair tonight and Sunday.

The People are Taking a Lively Interest in the Matter Now.

It is Believed That the Necessary Ground Could Be Secured Without Much Trouble.

WOULD MEAN A BIG BOOM TO PADUCAH

The talk of getting an army post for this section of the state, to be located near Paducah, is becoming quite absorbing. Nothing has been heard from the war department by the Commercial club, but it is believed that something definite will be learned in a few days.

The intention of the war department is to have four army posts in this country, and the standing army, except that portion not in active service in our insular possessions, will be concentrated at these posts.

It is customary to have only a few hundred acres for a post, but on account of the change of the government's policy, a much larger tract of land will be required.

Twenty thousand acres will be equal to a tract five by six miles. It will be large enough for maneuvering a large army, and from five to fifteen thousand soldiers will be located on it.

Barracks will be built; houses for the officers, sheds for the horses, a rifle range, and, in fact, everything necessary for a large post. To get such a large tract of land is at present some thing that is causing the officials who are working for the post some little anxiety, but it is believed that it will be an easy matter to find it and get it at a reasonable figure.

Mr. C. H. Haslam says it can be found in his section of the country, south of Paducah, and that living in that section will give a soldier qualities that make him fight until he dies, because it is a place where they raise fighting stock only.

The Commercial club, as stated several days ago, has had the matter up for two weeks, and is now waiting for Congressman Wheeler to return to Washington. In order that he may use his influence in obtaining the desired information. Nothing can be done until it is ascertained whether or not the war department would consider a proposition from this section of the country.

If it does, it will then be necessary for the Commercial club and city council, which with Mayor Yeiser is co-operating with the club, to obtain options on the land. They will then have to go before the secretary of war and lay before him the papers containing the options, showing that 20,000 acres of land, as desired, can be secured here for so much money, and if the price and other essentials are satisfactory, we should not doubt get the post.

As the enormity of the advantage becomes to be generally realized by the people, the interest in the project grows, and now most everybody is interested.

To spend several thousand dollars on the start, building and equipping the post, and the subsequent monthly distribution of pay to the soldiers is something that would increase business in this section to an amazing degree, and would build up Paducah in a short time, until it would become the most important city in the state, with Louisville gradually dwindling into second place, where she belongs.

It is not believed that the government, should it purchase land, would necessarily dispossess everybody living on it. There would doubtless be tracts of it that would not be traversed perhaps in years, and would remain in cultivation, and it is not believed that there would be any trouble in getting the twenty thousand acres.

Washington, Jan. 11.—President Roosevelt this morning instructed the secretary of the treasury that Collectors Sam Roberts and Franks of Kentucky would remain in office. This settles two interesting contests. They have now only to file new bonds.

CHIEFS ARE TIRED PROMINENT VISITORS

Complete Surrender Will Take Place Monday Next.

Rebellion in Bantanas Province is at an End, According to Reports.

MEN AND GUNS ARE GIVEN UP

Manila, Jan. 11.—Colonel Mariategan, Major Cabrera, and a renegade priest named Castillo, who stole a valuable image of the Virgin from a church, for which he obtained large sums of money, have surrendered unconditionally to General Bell, who is conducting the campaign against the insurgents in Bantanas province. They had control of the district of Tonal, extending westward to the sea. These chiefs will on Monday absolutely surrender every man, and gun in their district. It is estimated that 160 guns will be turned in. Many men and guns have been captured during the past few days.

General Bell today had a conference with General Chaffee. He says the present campaign is securing valuable results, and that it is possible Malver, the insurgent leader will surrender next week.

The United States commission has appropriated \$2,500,000 for insular expenditures during the first quarter of the year.

HAS LITTLE FAITH IN FILIPINOS.

San Francisco, Jan. 11.—Brigadier General Robert P. Hughes, who returned from Manila on the transport Warren after three years' service in the Philippines, is on leave of absence, during which he will visit Washington and other Eastern cities. He said that while the situation in the islands is slowly improving, it would be a long time before the troops can be withdrawn nor their number materially lessened. He has very little faith in the professed friendship of the Filipinos. He believes that their apparent acceptance of the new condition of affairs is dictated largely by self-interest, and that at heart they have very little sympathy with the Americans. Strict military rule will be necessary for some time to come, he thinks.

THIRTEEN INSURGENTS KILLED.

Washington, Jan. 11.—The navy department received the following cablegram from Rear Admiral Rodgers at Cavite:

"Waller reports having completed a ten days' march across Samar from Lunang to Buhey. Column endured great hardships. Killed thirteen insurgents, captured captain, lieutenant and four men."

Major Littleton W. T. Waller of the marine corps rendered a gallant service with the marines in China during the march of the allied forces from the sea to Pekin.

The island of Samar is one of the several islands which are still making a strenuous though desultory opposition to American sovereignty. It was at Balangiga, on Samar Island, that the massacre of Company C, Ninth Infantry, occurred. In view of the beligerent spirit manifested by the natives on this and other occasions, and the physical character of the country traversed, the march of Major Waller and his command was a feat of more than ordinary daring. Lunang is situated on the east and Beaycu the west coast of Samar, to the southern part of the island.

OIL PROSPECTS.

A GUSHER STRUCK WITHIN FIVE MILES OF MR. GEORGE C. WALLACE'S LAND.

A big gusher has just been struck at Columbia, Tex., five miles from the place where the oil wells are being sunk on property belonging to Mr. Geo. C. Wallace and Rev. W. E. Cave of the city. News of the strike reached the city last night, and is very encouraging to Paducah property owners.

The work on their wells has been quite slow, but they are confident that oil will be found shortly.

Miss Helen Gould, the Noted Philanthropist, May Come to Paducah.

She Has Been Invited By the Y. M. C. A. Committee—Capt. Hobson Has Accepted.

PROMINENT PERSONAGES ARE COMING

Miss Helen Gould, the noted philanthropist who has done so much good in religious circles, may be in Paducah next month to attend the meeting of the state Y. M. C. A., which will be in session the latter part of February.

The committee has invited Miss Gould to attend, and it is hoped that she will accept, for Paducah would feel honored to entertain such a good and distinguished woman. A reply is expected in a few days.

Captain Richmond P. Hobson, who sank the Merrimack in Santiago harbor, will be one of the distinguished guests. He accepted the invitation from the committee several weeks ago, and will certainly be here and deliver an address.

In addition there will be the most prominent state and national workers in Paducah during the meeting of the association, which is always one of the most important among the various conventions held every year.

It is not yet known whether Admiral Schley will be in Paducah on his way south next month or not. He will not be in Memphis until April, and may pass through here then.

NEGRO WAS MOBBED.

HE ATTEMPTED TO ASSAULT A SMALL WHITE CHILD AT SPRINGFIELD.

Springfield, Ky., Jan. 11.—There was a quiet lynching here last night. About midnight a crowd of unknown persons went to the jail and hanged Jim Mays, the negro who a few days ago attempted to assault a white girl in this county, and was severely beaten up by her infuriated brothers, who were attracted by her cries. It was thought for awhile that he would die, but as he began to improve, the determination to prevent his having a trial became strong, and he was taken out and hanged to a tree in the high school yard at midnight. The work was secret, and many people did not know of the lynching until this morning when they arose.

NEXT WEEK.

MR. ED MUMFORD WILL SEND HIS LIST FOR A COMPANY OF STATE GUARDS.

Mr. Ed Mumford, the well known traveling man, and proprietor of the Palmer House news stand, has almost enough names to secure a company of state guards for Paducah, and will perhaps next week forward the list to the adjutant general, for the purpose of being mustered into the service.

He began several weeks ago the work of getting up the list, and has found fine material here.

LAST PAY DAY.

About half the teachers have closed their schools, and in one month all the county schools will have closed for the summer. Former Superintendent Hughes is assisting him in the work of paying the teachers. All the checks have been made out and are awaiting the teachers.

When Mark Twain wrote "Puddin' head Wilson" he incorporated into "Puddin' head's" calendar, this query: "Why is it that we rejoice at a birth and grieve at a funeral?" Is it because we are not the persons involved?" The question still is a mooted one and the person who successfully solves its intricate pertinence will be voted a phenomenon. There are things in this calendar of which we might speak at length, all of them an-

SOCIETY AT NORMAL.

After the whirl of past two weeks Society has had to settle somewhat, and the week has seemed rather quiet, but not from the comparative point of view. In reality there has been plenty to go to, and to do, but the absence of anything approaching the elaborate function, or of the two or three parties crowded into one afternoon, has made the difference. There has been quite enough of pleasure to keep the week alive with interest, but the tension has been less tightly drawn. Society is normal once more. The visitors in whose honor we have celebrated much this Christmas have not been allowed to feel the relaxation too keenly, for the Cotillion club gave them a german, and the Kentucky has furnished the entertainments for the off-nights.

Conclusion, after several weeks of rest, crowded out by the Christmas decorations and the holiday gaieties, is in full swing again, and occupies its wonted place on the social calendar. Altogether, being at normal is not so dreadful a thing after all, and from present indications that may be the state for some time, for the coming weeks while holding some special events in promise give no prospect, as yet, of being overcrowded. However, 1903 has already started us somewhat, so one is not prepared to say what surprises there may be in store for us. The air is positively tingling with rumors of weddings and all one hears is true there may be gayety galore, for the swell weddings and attendant festivities stretch on into the springtime, and Paducah will be a much married town, indeed.

THE CORBETT.

CRARY WEDDING.

The marriage of Miss Mary E. Corbett to Mr. Arthur D. Crary, of Cincinnati, will take place next Wednesday afternoon at 4:30 o'clock at the First Christian church, Rev. W. H. Pinkerton performing the ceremony. The marriage was announced some time since and the invitations were sent out last week. It will be a pretty church wedding and the popularity of the bride will insure it to be a crowded affair. Miss Ella Settle, a cousin, will be the maid of honor. It will be a white wedding, the bride wearing white crepe de chine over white silk with veil, and the maid of honor white organdy over white silk.

Mr. Tom Corbett, of Memphis, Tenn., the bride's brother, will give her away. The ushers are: Mr. Charles Root, Mr. John Sherwin, Mr. Edwin Olson, Mr. Douglas Nash, Mr. James Campbell, Mr. Frank Boone, Mr. Hughes McKnight, Mr. Evert Thompson.

At 6 p. m. the couple will leave for a bridal trip south and will be at

home in Kansas City, Mo., after March 1. Among the out-of-town guests to the wedding will be Mr. and Mrs. Ralph Crary of Chicago, and Mr. and Mrs. C. B. Crary, of South Haven, Mich.

Miss Corbett is an exceedingly pretty and attractive young lady, and a popular member of Paducah's society where she will be much missed. She is a member of the Sans Souci club and various prominent social clubs, and has fine musical ability. She is bright, sparkling and agreeable, and a favorite everywhere.

PLAYED A JOKE.

AND THE VICTIM RAN UNTIL HE FELL IN A FAINT.

For the past several weeks and during the past summer the residents of the Little addition and the employees of the yard office of the local I. C. road had been seeing lights in the marshes and the hollows near the road and in the vicinity of the I. C. depot. The light, which is undoubtedly the will-o'-the-wisp, was seen again several days ago and the negroes of that section became alarmed, thinking it was a ghost of some one killed by the railroad.

There has also been seen about the yards an animal resembling a wolf which appeared in the woods at different intervals making two most horrible sounds imaginable. Tuesday night one of the colored employees of the yard department was sent to town on an errand and upon his return the yard employees had fixed up a joke to scare him. They procured a green piece of cloth and tied it about a lighted lantern and stationed themselves behind trees in a hollow through which the negro had to pass to reach the yard office. Pretty soon he was seen coming down the track, and the lantern was produced just as he neared the hiding place of the jokers. The men set up a dismal howl, and waving the lantern started in pursuit of the negro, who had lost no time in getting away from the vicinity. When he reached the yard office he fell in a faint, and it required some little time to restore him to his normal condition.

SATURDAY, JANUARY 11, 1902.

The canal question is one that Congress is not through with, by any means, although the vote in the house Thursday was almost unanimous in favor of the bill adopting the Nicaraguan route. The Senate has yet to pass on it, and it is said will be inclined to favor the Panama route. Congress has been dillydallying with the canal project for years, and after it had been fully decided to give the French company that controls the abandoned Panama canal no further consideration, and steps were taken to proceed with the Nicaraguan canal, the Panama people immediately notified this government that they were willing to take \$40,000,000 for their property, where they had formerly refused to think of anything less than \$130,000,000. It is not known whether this abrupt and inexplicable action of the Panama people is designed to delay the other project, or is simply a last resort of men who have been holding out for an exorbitant price as long as there was hope of getting it, and when they saw their last chance go glimmering, offered to take the other price rather than nothing. Each route has its advantages, but the principal one with the Nicaraguan is that it will be built in six years, while it will require ten to complete the Panama. The latter is much the shorter, but the other is nearer this country. It is estimated that there will not be much difference in the total cost.

Captain Joe Fowler's proposed humane society would be an excellent thing, if it could be organized and required to do any work. The trouble has always been in Paducah that no one seems to care about how cruelly animals are treated. It is just as Captain Fowler says, instead of compelling some brute driver to stop beating his horse unmercifully, and taking the trouble to have him arrested and fined, most people here will congratulate by the score and unsympathetically watch the beating, as if it were a free exhibition. It is not known why it is, but the hearts of the people of Paducah have never been in such work. A person with the right feeling for animals would go to a great deal of trouble to protect them, and see that persons mistreating them are properly punished. If you see a man trying to make his mule pull a load that is too heavy for it, you should not only call witnesses to corroborate you when the case gets in court, but should go to a great deal of trouble, if necessary, to see that he is arrested. This is the kind of spirit that is necessary in a people before a humane society will ever be anything but an organization of figureheads.

It is astonishing what narrow, idiotic men sometimes get into Congress. When one thinks of the intelligent, broadminded men who are forced to live at home, while noisy, hare-brained politicians often occupy some of the highest offices, it is enough to disgust anyone with politics. A St. Louis Congressman is vigorously opposed to this country's sending envoys to the coronation of King Edward, on the ground that "it would be recognizing a monarchy and admitting Great Britain is a greater country than the United States." This is rank imbecility, and is unworthy of any sensible man, much less of a Congressman. Toleration and a respect for the views and customs of others should be a part of every American's principles. If the people of England are satisfied with a monarchy, we

have no cause to complain, and because we would prefer our own government is no reason we should not observe those diplomatic ceremonies common between friendly nations, and send representatives to the coronation. We admit that no nation is greater than ours. Such talk is the result of sheer mental degeneracy.

If some decision is not soon reached as to how the taxes for running the city from June to January are to be raised, if we go into the second class, it may be too late to do anything. It is understood that if the assessment made recently by Assessor Lyon is supervised by a regularly appointed board of supervisors during this month, there may be a chance of complying with the forms of law, and laying a tax for the last half of the year, taxes having already been levied for the first half. The month is nearly half gone, however, and no board of supervisors has been appointed. Supervising the tax book is tedious work, and requires several weeks, and some attention should be given to it now, if the last assessment is to be utilized.

A McMinnville, Tenn., grand jury found itself up against the real article the other day. It seems the trouble arose over voting whiskey out. The grand jury refused to indict where whiskey had been sold, and the circuit judge got mad and fired the jury out of the court room, bag and baggage, but not until after he had delivered a good roast. A new jury was impaneled and told not to fail to do what its predecessors left undone, and at last accounts it was trying to decide whether to run the risk of being annihilated by the whiskey gang, skinned by the judge and ostracized by the good people, or simply to go and kill themselves.

The Lexington Herald gives the general council some good advice, and it is advice that is applicable as well to the council here and in every other city. It says: "The members of the general council are virtually, and should conduct themselves directors of a business corporation. They are elected by the people not to attend to political duties, nor to make political capital, but to attend to the affairs of the city, and conduct those affairs for the best interest of the city. They should be able to conduct themselves without friction, without unseemly discord and without an effort to play politics or gain partisan advantages."

The people of Southwest Kentucky, inasmuch as a Democrat was sure to be chosen United States Senator, would have preferred Congressman Wheeler, who is one of us, but it was anyone rather than Judge Cantrill. It is a matter for rejoicing that a majority of the state legislature, representing a majority of the Democratic voters of Kentucky, have repudiated Cantrill. All his dirty work has been done for nothing. He will soon be relegated to the oblivion to which men of such unscrupulous practices belong.

The Democrats need not have gotten mad about the resolution introduced into the legislature by the member from Christian county, requiring members to vote according to the dictates of their own consciences, instead of according to their politics. The Democrats of Kentucky were never known to have a conscience, much less a dictate of conscience, and the resolution would not have affected

"KING'S EVIL"

Those old English Kings made history. Those old English Kings were fast liver. Those old English Kings got sick.

One disease became so common to them as to be called "King's evil"—a royal disease. It is now among us—the well known scrofula. Those old English Kings handed it down, spread it through the nations, and here it is.

Too bad Scott's Emulsion was not made in time for those Kings. Scott's Emulsion is a positive cure for King's evil—or scrofula. It heals the sores, adds strength and flesh and brings good health.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

HERE'S A BABY

ITS MOTHER IS WELL.

The baby is healthy because during gestation its mother used the purely vegetable Lactogen.

Mother's Friend.

Mother's Friend is a soothing, softening, relaxing oil, a muscle relaxer, invigorator and sedative. It puts new power into your back and hips. A cooling, moistening oil. It is from the milk of a cow with her own pretty fingers, and does not contain any of those nasty drugs—no inside treatment at all.

The state of the mother during gestation may influence the disposition and even later the health of the child. It is not easy to watch the condition of a mother from birth. Her health, that of her child and their lives, depend on keeping free from fatigue, worry and nervousness. The oil of good cheer, strong of heart and peaceful mind. Mother's Friend can and will make you so. Relieve your pains, morning sickness, nervousness of heart, and insomnia are all relieved and diminished by this wonderful remedy. Lactogen is the purest vegetable food. Send for one book—Motherhood—free.

their vote in the least.

Here is a sample of what is supposed to be Democratic wit, perpetrated by the Frankfort Journal on the legislative speaker's ship: "Western Kentucky seems to have weathered the Ford and then stuck its Finn in Holland." "Ions are always a high class of wit, but this one is unusually elevating and intensely amusing!"

General Funston, the man who captured Aguinaldo, is in this country on sick leave. He has a two months' leave, and may not return to the Philippines at all. He is shortly to go to Washington on important business, and so far as has been reported, has received no offers to go on the stage.

With Cantrill on the bench, a jury of "the faithful," and made to order, and Tom Campbell to coach the witnesses, Jim Howant might as well take off his things and prepare to stay a while.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CALENDAR SESSION

Fiscal Court May Be Summoned to Make Road Appropriation.

Fortson's Levee and Other New Improvements Badly Damaged By Recent Rains.

County Judge Lightfoot will probably call a special meeting of the magistrates shortly to consider the matter of making appropriations for the repair of the county roads, and also for Fortson's levee, that was recently damaged by the rains.

The levee was built to keep the waters of the west fork of Massac creek from overflowing the banks and washing away the land, and in the recent rains the levee was partially washed away. Mr. Fortson spent over \$350 in repairing the levee, but it is still unsafe, and to repair it so that no danger will hereafter be feared will be the object of the called meetings of fiscal court. Mr. Fortson was in the city this morning to confer with the magistrates, and also with County Judge Lightfoot in regard to the matter.

Appropriations for repair of the county roads will probably be made at the same session.

DELIGHTFUL MUSICAL.

The musical given by the Catholic Knights and Ladies on Friday evening at the Elks hall was a delightful occasion. The program was very fine, and quite an artistic success, all the representatives being especially talented. The evening was much enjoyed by the audience, who are always sure of a distinct pleasure when this society gives an entertainment.

NEEDED THE WHIPPING.

Mrs. Lon Harper, a school teacher, was tried before Justice Tapp yesterday afternoon on a charge of unreasonably whipping Dollie Thompson, a boy, for not attending school and for fighting. The evidence showed that he was not much hurt, and the jury thought the teacher was justified in administering the chastisement, and rendered a verdict in her favor.

NO PRELIMINARY HEARING.

A. B. Charlton, the notary public of Wingo charged with making a false certificate to a pension claim, will not be given a preliminary hearing before Commissioner Armour Gartner. He was indicted by the last federal grand jury, and gave bond in the sum of \$1,000 for his appearance at the next term of federal court, which will be in April.

Y. M. C. A. NOTES.

THE CRANE LECTURE TOMORROW WILL BE LARGELY ATTENDED.

All arrangements for the big lecture, to men only, at The Kentucky tomorrow afternoon at 8 o'clock by Rev. Arthur Crane, the evangelist of Charleston, S. C., who is here carrying on a revival service at the First Baptist church, have been made and the attendance will be the largest of any lecture ever given in the city. Cards advertising the subject have been distributed throughout the whole city, in all the mills, shops and stores, and the lecture could not have been better advertised. No admission will be charged but the lecture is for men only. The subject is one that is believed by all men, infidels, agnostics, Protestants, Catholics and Hebrews.

On account of the men's lecture there will be no boys' service at the Y. M. C. A. tomorrow afternoon.

The women's committee did not meet yesterday on account of the illness of several members but a meeting will be called soon and the business done in the past several weeks reported. MAJOR SAUNDERS

THE NEXT DEPUTY U. S. MARSHAL IS HERE ON BUSINESS.

Major George Saunders of Mayfield, arrived in the city at noon today to arrange for assuming the duties of the U. S. deputy marshal of this district.

Major Saunders held the office several months ago, but was succeeded by Mr. La Rue, who was a short time ago transferred to the Owensboro district. Major Saunders has been notified that he will be appointed but has not yet taken charge of the office but will probably in a few days. The report that the salary of the office had been raised was untrue as the office pays in commission and not in salaries.

Fine Lunch At Lagomarsino's TO-NIGHT!

Live independent, live long. Without making any claims for or against exercise, an investigator who has taken the pains to examine into the age at which eminent men died, found that moral philosophers, astronomers, statesmen and clergymen of the higher or more contemplative class, philanthropists, literary men of independent means and others whose lives were not likely to be marked by an excessive degree of muscular activity, have generally had the longest lives.

Note of Wolfe's Monument. "It is said," writes a Quebec correspondent of the London Post, "to see the state of Wolfe's monument today. Rank grass grows high inside the rusty and worn iron railings. The column is cracked and if nothing be done must soon perish. The monument, a simple column with a helmet and sword on the top, and its inscription: 'Wolfe died here, victorious, 13 Sept., 1759.' is sublime in its simplicity."

PASSING OF THE TABLE CLOTH.

It is No Longer Esteemed Necessary by Fashionable People.

Dinners, luncheons and teas without cloths for the table are not only permissible in fashionable society but are becoming all the style. The table is set upon the bare wood and napkins are the only linen goods visible. All natural woods are beautiful if well kept and oak, walnut, ash or cherry will do perfectly if the scratches and stains which deface it are removed. Nor is this a difficult matter. A coat of brown shellac, a thorough rubbing once a week with a purchased polish or with raw linseed oil with a few drops of turpentine and a dally polish with an oiled bit of flannel will give a handsome table top. "Elbow grease" is the secret of a perpetual polish. Dollies are now so varied, so abundant and so pretty, prettier than any cloth, no matter how beautiful, as well as so much easier laundered, that there is small excuse for not dispensing with the large cloth. The best center piece for everyday use is a hemstitched damask square. This will last fresh for a week, while more elaborate designs may be substituted for special occasions. Small dollies come in all sizes and at all prices, from the costly cephebs of Mexican drawwork and the exquisite Honiton lace ones to the inexpensive Honiton lace and linen or simple squares of hemstitched linen. With a pretty centerpiece of flowers or ferns, not overelaborate and smacking of the conventional greenhouse designs, but with the individuality of the genuine flower lover shown in its simple arrangement, with plates, glasses, knives and forks set straight upon the polished wood, with crystal clear glasses, bright silver and fresh napkins, no one need wish for a daintier or more attractive looking table.—Chicago Chronicle.

SHADOWS ON THE COLUMNS.

Superstitious People Study Silhouettes of the White House.

The shooting of President McKinley recalls to superstitious minds the shadows that have appeared in recent years on the large columns of the north or main porch of the White House, says the Washington Star. During the winter months these shadows are more distinct than in other months and appear near the top of the columns around the mid-day hours. It is recalled now that last fall a shadow appeared that had never been seen on the columns before. It required no effort of the imagination to recognize it as a human forearm and hand, with bent finger upheld in the attitude of warning. It appeared and disappeared each day for a fortnight or more. Some time after this, when the sun's position had changed, a shadow of indescribable form appeared on the great pillar at the extreme northwest corner of the portico. It soon took on definite shape and at 1 o'clock in the afternoon represented the face and shoulders of President McKinley in profile. The silhouette was so striking as to attract the attention of many people, who remarked that a more correct profile drawing could hardly be made by an artist. The likeness was not a correct one for more than a few minutes and then it changed with the altering position of the sun, and ten minutes later had assumed a remarkably perfect likeness of the late Queen Victoria, even to an object on the head resembling a crown. Sometimes the shadows present the bent form of an old woman, with one hand resting on an object resembling a spinning wheel.

STATE OWNERSHIP.

Next Generation Will Hear Much Discussion on the Subject.

The ownership of the telegraph and the railways by the government is likely to be much discussed in the United States within the next generation, says Charles A. Tamm in the Atlantic. There are many objections to such control, but the proposition is capable of candid discussion and does not in itself go beyond the confines of a legitimate political issue. Railway corporations held their privileges under the right of limited ability. This makes each of them an artificial creature of the law. They have obtained by favor of the state another important privilege, in the right to take land for their tracks by right of eminent domain. That the state has the right to revise these grants of special privileges so as to establish a closer supervision over the use and abuse is unquestionable, except perhaps in exceptional instances. If the proposal that the government shall acquire the railways is socialistic or revolutionary it is a form of revolution already achieved in the most conservative countries of Europe—Germany, France, Belgium, Switzerland and Russia. Switzerland has only recently completed arrangements for the acquisition of the chief private lines and their conversion into state railways. The telegraph lines are now controlled by the government in nearly every European country, including Great Britain, and the functions of the post-office are steadily encroaching upon the business of the express companies.

India's Bad Year.

Lord George Hamilton, secretary of state for India, in presenting his financial statement, said that in spite of three years of famine and acute depression in the three agricultural staples, he was able to present the most favorable balance sheet since India came under the crown. The relief expenditures for three years totaled £15,000,000, but the same period showed a surplus of £6,377,000. The crop outlook was fair. The results of the gold standard policy had more than realized expectations. A railroad expert will be sent to the United States to study railroad conditions.

SURPRISING RESULTS.

A SIMPLE INTERNAL REMEDY MAKES REMARKABLE CURES OF CATARRH.

People who have nebulas, inhalers, salves and washes for catarrh and have found how useless and inconvenient they are, will be agreeably surprised at results following the use of a pleasant, internal remedy in tablet form; druggists everywhere admit that Stuart's Catarrh Tablets, which

they sell at 50 cents for full sized treatment is the safest and most effective and popular of all catarrh remedies.

Nearly all cheap cough mixtures and throat lozenges contain opium; these cheap medicines give a temporary relief, especially with little children by destroying nerve sensation; the irritation in throat, which causes coughing is temporarily removed, not by removing the cause but by deadening the nerves from feeling, the irritation is not felt although it is still there and will promptly return. Stuart's Catarrh Tablets is the best remedy to remove catarrhal secretion, whether in the nose, throat, or stomach because they are composed of wholesome antiseptics like Red Ginn, blood root, etc.; when you use these tablets you know what you are putting into your system and not taking chances with cocaine, opium or similar poisons found in so many catarrh cures and cough medicines.

Dr. Russell in commenting on catarrh cures says: "I can heartily recommend Stuart's Catarrh Tablets, because they contain no cocaine nor other dangerous drug found in so many advertised catarrh cures. I have known of many cases of long standing catarrh of the head and throat completely cured by the daily use of these tablets for several weeks. The case in particular, which I could not reach with an inhaler or spray and where the catarrh caused daily headaches and a noticeable loss of hearing was entirely cured by this harmless but effective remedy."

Dr. Wainwright says: "I never hesitate to prescribe Stuart's Catarrh Tablets for catarrhal headaches and catarrhal deafness because I know them to be perfectly safe for a child or adult and have seen many remarkable cures resulting from their regular daily use; because they are advertised and sold in drugstores is no reason why any good physician should not use them because we should seize upon the means of cure whenever found."

Stuart's Catarrh Tablets are especially valuable for catarrhal colds in children because they are pleasant to the taste and may be used freely to break up severe colds and croup at the very beginning.

All druggists sell the remedy at 50 cents for full sized package.

THE RIVER NEWS.

(BY W. F. LAMBERT, REPORTER.)

Observations taken at 7 a. m. River, 26.6 on the gauge, a fall of 1.8 in last twenty-four hours. Wind, north-west, a stiff breeze. Weather, partly cloudy and colder. Temperature 80. Fell, Observer.

Business was moving at a lively pace today down on the wharf.

Captain John Dravo, representing the Pittsburgh Coal Exchange, appeared before the Rivers and Harbors committee to ask for the further improvement of the Ohio river. He particularly desired an investigation of bridges which span the river, stating that commerce was in a large degree obstructed by their positions. Captain Dravo also asked the committee to condemn a strip of Sand Island below Louisville in order that boats would not be obliged to pay the present exorbitant rates for necessary stoppage charged by private owners. There will soon be some more changes made in the affairs of a vital river localities.

The beautiful new towboat Maude Rogers arrived from Tennessee river last evening with a big tow of ties for Japan.

Captain Mark Cole of the Monitor Kilgore, says the best battleship built and fully equipped up to the expense of Mr. J. L. Kilgore who owns and built her.

The I. N. Hook arrived from the Tennessee river last night with a big tow of ties.

Dave Mantz is in the city. He has been handling the engine of the I. N. Hook for a few days. Dave is all right, and makes first class in his capacity as a steamboat engineer.

CADIZ RAILROAD.

TRAINS WILL BE RUNNING IN ABOUT TWELVE DAYS.

Work on the railroad from Cadiz to Gracey is progressing rapidly, and will be completed in two weeks if nothing untoward happens.

At the meeting of the stockholders the following directors were re-elected: W. O. White, K. R. McKee, John D. Shaw, J. W. Crenshaw, P. L. Grinter, F. K. Grasty, Geo. L. Smith.

The crew which last week putting down the track went into Pilkinton's field, four miles from Cadiz yesterday morning, and with twelve more days good weather, like the past ten, the rails will be laid and trains will be running.

IN MAYFIELD.

YOUNG MAYFIELD MAN ACQUITTED OF DESERTION.

Mayfield, Jan. 11.—Last February Chief of Police McNutt arrested Dan Russell, formerly of this city, charged with deserting the regular army and carried him to Jefferson barracks in St. Louis.

Mr. Russell arrived in this city this morning on a visit to his parents, Mr. and Mrs. Reese Russell on a three days' furlough. He was acquitted.

J. L. D. Hite died last night of Bright's disease at his home about three miles northwest of the city, at the age of sixty years. He was a very prominent farmer. The interment took place at Lebanon church six miles south of town.

COULDN'T FIND HIM.

Captain Henry Bailey and Officer Guy Nance have returned from an unsuccessful trip to Ballard county, where they heard "Spot" Polk, the negro who killed Lonnie Entrell, and "Nubs" Briggs, a negro wanted at Newcastle, Ind., for murder, and who was formerly with the Buckskin Bill show, were in hiding. The officers left word that they were going hunting, and made a good search of the localities in which the men were supposed to be, but found no trace of them.

FELL FROM TREESTLE.

THE MIRACULOUS ESCAPE OF A
RAILROAD MAN FROM
DEATH.

Mr. Gness Adams, an employe of the bridge gang of the N. C. and St. L. railroad, met with an accident last night that came near costing him his life. He and several companions were walking the N. C. and St. L. trestle, near the I. C. depot, about 12 o'clock, as they were returning from town. The electric lights were burning brightly, and the men had been walking on the fill beside the track. Mr. Adams was walking on the ties, and when the trestle was reached did not notice that he was on a trestle. He became tired of the ties, and thought he would step on the cinder path, but when he made the steps he fell to the earth below the trestle, a distance of about twenty-four feet, and broke his right arm. He was slightly bruised by lighting in a pile of rocks, but other than this and the broken arm, his escape from injury and death is remarkable. He lives at Murray, and works in the bridge gang of Mr. Conn Frazer.
